TOWNSHIP'S FIRST W. A. A. C. GRADUATES FROM TRAINING

The First young woman of Washington Township to be accepted into membership in the Women's Auxiliary Army Corp (WAAC's to us) graduated from the first course of training at Des Moines, Iowa last Saturday according to wires received by her mother, Mrs. A. N. Silva of Centerville and Miss Agnes Raymond of Irvington.

Miss Silva is a graduate of the Centerville Grammar School, Washington Union High School and was employed at an Oakland defense plant until she decided to go into the service of her country. Her new address is not known at present but she will be with the Transport Division. The course she has taken was to have been for three months but due to the urgent need for these women it was condensed to four weeks. Our best wishes go with this young woman who so boldly represents our young American womanhood.

IRVINGTON SOLDIER IN STAFF SERGEANT

IRVINGTON — Mr. and Mrs. Joe E. Amaral Sr. of Irvington have received word from their son, George, that he has been made staff sergeant after enlisting a year ago.

Sergeant Amaral is stationed with a quartermaster battalion in the Imperial Valley. His brother, Corp. Arthur A. Amaral, is connected with the Second Battalion headquarters 36th Infantry Regiment, at Rice, California. A third member of the family in the service is Pvt. Albert R. Martin at Camp San Luis Obispo, a son-in-law of Mr. and Mrs. Amaral.

* * *

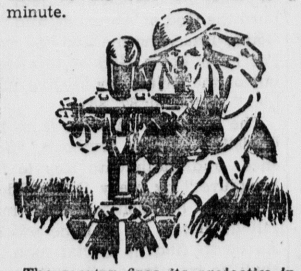
FRANK EDWARD LEWIS from Newark who enlisted in the Navy about a month ago, is home on a nine day furlough visiting with his folks, Mr. and Mrs. Frank Lewis. Frank is still stationed at San Diego.

George Fields, Jr., who is in the U. S. Army, is home on a furlough.

FRANK LEIVA Jr., who is in the U.S. Army, has been transferred to Honolulu.

★ What You Buy With WAR BONDS ★

The "Stovepipe," as the 60-millimeter trench mortar is commonly known, is used by our infantry for close-in fighting. It fires a 2.4-pound shell at the rate of about 35 a minute.



The mortar fires its projectile in a U-shaped arc and for this reason may be successfully camouflaged behind an obstruction. It costs about $500. You and your neighbors, joining together, can buy many of these effective weapons for use of our army. Investing at least ten percent of your income in War Bonds every payday will do the job. Get on the firing line on the home front . . . join the "Ten Percent Club."

U. S. Treasury Department

AIDS GIVEN LESSONS

IRVINGTON — Our community was well represented at the Blood Procurement Staff School held at the High School in Centerville Tuesday morning by the Oakland Chapter of the Red Cross, according to Mrs. Tom Power, chairman for Irvington with the following registered: Mrs. E. H. Hirsch, Mrs. Justine Adams, Mrs. Wm. Robinson, Mrs. Anna Rose, Mrs. Irma Wright, Mrs. Florence Beardsley and Mrs. Carl Christensen. Mrs. Jack Prouty is co-chairman.

MEN & WOMEN WANTED TO HELP RATION BOARD

George C. Roeding Jr., chairman of the Washington Township Rationing Board has issued a call for a number of men and women who can help with the gasoline sign-up which starts Monday, November 9.

Any man or women throughout the Township who can write a legible hand or run a typewriter is asked to mail, phone or give his or her name to the Ration Board, phone Niles 4463 as soon as possible.

These men and women will be instructed in their duties prior to November 9, and will be asked to serve part time or full time, day or evening, starting on November 9.

This call concerns only the sign up of persons or firms entitled to B and C cards who must apply at the Ration Board Office which will have a long table erected in the vacant building adjoining their present office where the work will be handled as rapidly as possible.

The ordinary citizen, entitled only to an A card for private and family use, will apply at his or her nearest school house on Monday, November 9, only. The volunteers asked for by Mr. Roeding are to serve at the Ration Board only, not at schoolhouses. The principals with their Parent Teacher associations will make their own arrangements for the Class A card registration as they did with the sugar sign up earlier in the year.

Note that all motorists applying for Class A cards must bring with them, at the time they make their applications, the serial numbers of the five tires belonging to their automobile or automobiles. If they have more than five tires per car in their possession, which are in good condition or suitable for recapping, these surplus tires must be turned in to the nearest Railway Express office for purchase by the government. BEFORE November 9.

Pvt. RUDOLPH FREITAS, who is stationed at the new base at Turlock, with Staff Sergeant LERAY RAYMOND of Camp Roberts visited Sunday with the latter's parents, Mr. and Mrs. Stepp Raymond.

Miss Agnes Raymond, with relatives and friends spent Sunday in San Francisco at which time an en-training party was given for her uncle, GEORGE CALDERA of Hayward, who enlisted in the U.S. Army. Our best wishes go with the new service man.

Private FRANK ACALADE from Sacramento Army Air Corps, visited in Newark last Sunday at the home of Eleanor Freitas.

Private JOHN MARTIN of the United States Army, who has been stationed in Oakland for some time, visited with his father Bert Martin last week.

Corporal JAMES G. FROST is stationed in the U.S. Air Forces somewhere in England according to word received here by Miss Maxine Mau last week.

Corporal LESTER MEDEIROS, who has been home on a furlough, left on Wednesday for the State of Washington, where he is stationed.

Capt. E. C. GRAU, Army Medical Corps is now stationed in a large hospital three miles from Camp Adair, an infantry camp 15 miles from Corvallis, Oregon. Not a hotel room was to be had the night he reached Portland, he writes his wife at Niles.

Lt. JOLLY BATCHELLER of Niles has been promoted to the rank of Captain. He is also stationed at Camp Adair in Oregon.

French Inventor of Blitzkrieg

This rare shot of General Charles de Gaulle, today Commander-in-Chief of all Fighting French forces, shows him (center) at inspection with President LeBrun (left). Even in those years, says March of Time's "The Fighting French," the Nazis acknowledged this obscure tank officer as the genius of modern mechanized warfare.

ANOTHER NILES METAL PICK-UP THIS SATURDAY

Another Victory scrap metal drive will be held this Saturday afternoon for the benefit of the Toyon Branch of the Children's Hospital of the East Bay, with Mrs. J. R. Whipple in charge.

Trucks have been donated by E. E. Dias and Dr. T. C. Wilson and the following men, representing the American Legion and the Niles Congregational Church, will assist with the pick-up: A. B. Leask, Paul Woodward, Fred Duffie Paul Offel, Walter Waynflete and several drivers.

A "farewell to arms" will take place that afternoon when Clarence Crane, local garageman, hooks his towcar onto the two old cannon which have stood outside the Niles firehouse since 1921, and tows them out to the steel mill to be returned with our compliments, to the nazis and Japs in the form of new weapons or ammunition. .....

Persons who wish to contribute metal are asked to phone their names and addresses to the Niles Salvage Committee office at Niles 4442; or, if persons have only a small amount of metal they are asked to bring it in and dump it before Saturday noon on the lot in back of The Township Register.

Niles is lagging behind other communities in the Township, in the amount of metal picked up by various organizations in the series of drives held here. Thus far only about 30 tons have been delivered to the mill, which is less than half the tonnage accumulated by Alvarado, Centerville and Irvington.

Thus far not enough men and trucks have turned out on any pickup day to make possible a canvass of the farms near Niles. There is lots of metal still to be had in this district, in the opinion of all those who have worked in the various pick-up drives.

Any men wishing to help with this latest drive please be at the Niles firehouse this Saturday at 1 o'clock dressed in work clothes.

APPLICANTS FOR RECAPS SHOULD APPLY AGAIN

The War Price and Rationing Board at Niles is requesting all eligible applicants for recapped tires who have been refused heretofore, due to lack of quota, to reapply at this time. Due to a lack of quota on new tires it has been impossible to issue truck tires to all of those eligible. All truck owners are advised to watch their tires and have them recapped before casings ar too badly worn.

Institutional and Industrial sugar users should apply for their next allotment, which is for November and December. Institutional users will be given 60% of their base allotment, but no bonuses will be given this month.

The issuance of canning sugar has been formally closed, however, exceptions will be made to applicants who have a quantity of fresh fruit available.

— Talk, Act American! —

CHURCH WHIST PARTIES BEGIN NEXT TUESDAY

The series of three public whist parties being put on by the four men's and women's organizations of the Niles Congregational Church will begin next Tuesday night, October 27, at 8 o'clock in the Guildrooms with Trustee A. B. Leask in charge.

Tickets are now on sale by members of the Men's Fellowship club, the board of trustees, the ladies Guild and the Sanford Circle. They may be purchased singly for each night of play, or a season ticket for all three nights can be bought.

As the second Tuesday falls on election night and many card lovers of the community will be counting ballots that night, the committee has advanced the second night of play from Tuesday, November 3 to Monday, November 2.

The person, man or women, who attends all three parties and rolls up the highest score will receive a $25 war bond. Other gifts will be awarded each night of play with a door prize offered the last night, which will be Tuesday, November 10.

Tables, decks of cards, score cards and punches have been rented from H. L. Scott, representing the Odd Fellows association at Niles.

SHERIFF GLEASON TO ADDRESS CURRENT AFFAIRS CLASS

Sheriff H. P. Gleason will be guest speaker at the Current Affairs Class at Washington Union High School next Monday evening, October 26, at 8 p.m.

The topic for the evening is "Saboteurs and their Prevention", a subject of general interest to all citizens in war time. Sheriff Gleason is particularly prepared to discuss that topic since he has just returned from an Anti-Sabotage Convention in New York City.

A special sound film "Safeguarding Military Information" will also be shown to the class.

Everyone is cordially invited to attend this class which meets in the Visual Education room on the second and fourth Mondays of each month.

WOMEN WANTED TO WORK ON WAR CONTRACT

NEWARK — The James Graham Manufacturing company is being "made over" to begin the manufacture, about six or seven weeks from now, of a government order for 350,000 civilian defense stirrup pumps, Manager L. R. Burdick announces.

These small hand pumps are patterned on those used by the British and are kept in private homes with which to extingush incendiary bombs.

Women are wanted to apply for work on this new article as their employment should be permanent whereas men workers will be nearly all subject to selective service in the coming months.

Try Register Want Ads!

CHURCH WOMEN TO MEET

IRVINGTON — The Women's Association of the Irvington Church will hold its next meeting the second Friday in November at the home of Mrs. John Jorgenson, San Jose Highway with Mr. Evaul, student pastor of the church in charge. Plans for the annual bazaar and food sale in December will be completed and all members are urged to be present by the President Mrs. Bob Wright.

EVENING HIGH OFFERS MANY ADULT CLASSES

CENTERVILLE — Welders are being trained without charge. Positions are now open for welders in our township and training in welding is now given at Cennterville in the Evening School. Men and women are urged to attend the classes which are offered daily from 7 to 10 p.m. Louis Joseph is the instructor.

There is room for more students in the evening chemistry class. This class is organized to meet the increasing needs for chemical knowledge. Learning chemistry by doing experiments in the laboratory is the procedure in this popular course taught by Miss Langeberg, graduate student in chemistry at the University of California.

Mr. Irving Hird, P.E. instructor at W.U.H.S. opened classes in boys' sports and badminton for men and women on Wednesday at the Evening High School. These classes are intended to keep us fit for better work.

A new practical course in farm mechanics is offered by Carleton Brown. Farmers bring your machine problems to Mr. Brown.

Other courses offered in the Evening High School program are: commercial subjects, first aid, mechanical drawing and blueprinting, English, mathematics, citizenship, current affairs, sewing arts and crafts. If credit is desired, all courses lead toward a high school diploma.

By offering a complete evening education program, Washington Township is doing its share to promote growth for its adults. You can help by participating in some way. Drop in any evening, talk to the instructors and see how you, too, can enjoy your Evening high School.

NIGHT CLASSES IN FIRST AID START AT WASHINGTON HI

CENTERVILLE — Scheduled for firs aid and other new classes at the Washington Union Night School have been announced by Warren Gravestock, principal.

Mrs. Stella Benbow began an advanced first aid class at 7 o'clock last Thursday night and J. R. Truscott, chairman of first aid for the Washington Township Civilian Defense Committee began a standard course on Tuesday, October 20.

Twelve have enrolled in the chemistry class taught by Miss Loreva Langeberg and 14 in the blue print class taught by Bill M tte. The arts and crafts class directed by Miss Lourina Collins meets each Thursday from 3 to 6 o'clock in the art room.

ALVARADO CHILD HIT BY AUTO; PASSES AWAY

Nellie Coria, 4, of Alvarado, was struck by an automobile as she walked home from a theatre Sunday and was injured so critically she died on Monday.

She had multiple fractures throughout her body, bad lacerations and abrasions, and severe shock.

The accident happened near her home in Alvarado as she and her father, Antonio Coria, and two other children walked home from a show. She had lagged behind the others and was in the road when the car hit her.

The driver, Mary W. Auspland, 18, of Mills College, said there was no time to stop as the child darted into her path. Miss Auspland was not held.

Look for it in The Township Register.

ITALIANS NOW EXEMPT FROM CURFEW LAWS

In conformity with a Presidential directive announced October 12th by United States Attorney General Francis Biddle, exempting Italian aliens from aliens enemy regulations, Lieutenant General J. L. De Witt, Commanding General, Western Defense Command and Fourth Army, today issued Public Proclamation No. 13 effective at 12:01 a.m. on October 19, relieving such persons from curfew and travel restrictions now applicable to them in the several areas of the Western Defense Command.

The Proclamation was issued to unify the military rules with those announced by United States Attorney General Biddle, in conformity with Presidential order.

It also lifts travel and curfew restrictions for those aliens at present stateless but who at the time at which they became stateless were citizens or subjects of Italy, and aliens of enemy nationalities during their term of military service in the armed forces of the United States.

The curfew regulations revoked by this new proclamation required Italians to be in their places of residence between the hours of 8:00 p.m. and 6:00a.m. At other hours it limited travel to movement between their place of residence and employment or within a distance of not more than five miles from their place of residence.

Proclamation No. 13 does not apply to, nor in any manner change the status of German or Japanese aliens, or persons of Japanese ancestry. These groups will remain subject to the penalties of Public Law No. 503, 77th Congress, which provide for immediate apprehension and internment or court prosecution of any such persons guilty of violating restrictions applying to them under the various proclamations.

An Army spokesman further emphasized the fact that the necessity for continued vigilance and exclusion of individuals dangerous to the military security of the coastal front was not relaxed by this action.

TWO BOYS HURT WHEN MOTORCYCLE CRASHES FENCE

(Special to the Register)

NEWARK — An unidentified man called at the fire station Sunday morning at 12:45 a.m. and had Second Assistant Cheif Louis Calderia come to the road sign near the James Graham Manufacturing Company's plant where two boys on a motorcycle had gone through a barbed wire fence.

They found one of the boys lying unconscious in the field, the other on his knees with a broken arm and severe body lacerations. The motorcycle was badly damaged.

The Dallas Paul ambulance was called and the injured boys were taken to the Hayward emergency hospital. Traffic officers had the motorcycle taken to the fire house here.

Coming Events

FRIDAY

Corpus Christi Church bazaar opens in Niles, continues Saturday.

SATURDAY

1 p.m. Afternoon Victory Scrap Metal pickup in Niles benefit of Toyon Branch, Childrens Hospital.

MONDAY

8 p.m. Sheriff Gleason to speak at Current Affairs class at Washington High School. Public invited.

TUESDAY

8 p.m. First benefit whist party in Niles Congregational Church Guildrooms.

WEDNESDAYS

1230 p.m. Township Coordinating Council luncheon in high school cafeteria.

8 p.m. Township Legion Post meets.

MEMORIAL SERVICES PLANNED SUNDAY AT NEWARK CHURCH

NEWARK — A special memorial service will be held next Sunday morning at 10 o'clock in the Newark Presbyterian Church, in memory of two former Pastors, Reverend J. L. Webster announces.

The service will commemorate the able ministries of Reverend James Curry, who was Pastor here from 1907 to 1923, and Reverend E. E. Mathes, who was pastor from 1929 to 1937. Both have answered the last call.

Last winter a memorial fund was started in memory of these two servants of the church and apulpit chair has been bought from this fund which will be dedicated next Sunday morning. Mrs. Fred Muller is in charge of arrangements. Mrs. Josephine Brown will speak for Dr. and Mrs. Curry and Sam Scott for Dr. and Mrs. Mathes.

Of these four persons only Mrs. Mathes survives. She lives in Pasadena. At her request a special hymn will be sung by Mrs. Muller and Mrs. R. O. Grace as a duet.

A full attendance of the Church membership is requested.

IRVINGTON TO HAVE HALLOWEEN PROGRAM

IRVINGTON—Professionals and amateurs will entertain students of the Irvington Grammar School at a Halloween party to be held at the school's barbecue grounds and in the auditorium Saturday night, October 31.

The affair fill begin with a weenie roast at 7 o'clock. Arrangements are being made by the ParentTeachers Association, which is sponsoring the party. The group includes Mrs. E. M. Grimmer, president; Mrs. J. R. Silveria, R. A. Griffin, Mrs. Walter Connolly, Mrs. Bessie Olace and Mrs. Wayne Day. Jake Turnbow will be master of ceremonies.

IRVINGTON AUXILIARY OF FIREMEN INSTALLS

IRVINGTON — Florence Medeiros has been installed president of the auxiliary of the Irvington Fire Department, succeeding Lucille Day.

Other officers are Mary Rose, vice president; Irene Harvey, secretary; Anne Rose, treasurer; Mae Raymond, sergeant at arms; Marie Silveria, publicity chairman and Mary E. Freitas, card chairman. A gift was presented and refreshments served at the close of installation ceremonies.

SAFEWAY Homemakers' Guide

★ How to enroll in the "Kitchen Course in Nutrition" ★ Why farm-fresh produce should be sold by the pound ★ A list of flour and baking needs ★ Recipes for home-baked rolls

Delight your family with these recipes for home-baked rolls

War times have revived interest in good plain cooking, and homemakers are beginning to do more of their own baking. There's nothing like the fragrant aroma of fresh homemade bread or rolls baking in the oven to quicken already hearty fall appetites. And really, making your own rolls is easy, especially if you use the recipe for REFRIGERATOR ROLLS given below. These rolls have a decided advantage over most yeast breads, because the dough can be made several days in advance, then shaped and baked as you want. Simply cover the dough, in one mass and store in the refrigerator. About 1 hour before you want to serve rolls, take the dough from the refrigerator; let rise about 30 minutes; knead and shape into rolls; and bake another 30 minutes. That's all there is to it.

REFRIGERATOR ROLLS

7 cups all-purpose flour
2 cups milk
4 tbsps. sugar
4 tbsps. shortening
2 tsps. salt
1 cake fresh yeast

Sift flour and measure. Heat milk. Place sugar, shortening, and salt in large bowl; add hot milk; stir until shortening is melted; cool to lukewarm, about 15 minutes. Add crumbled yeast; mix well. Add flour; stir until dough leaves sides of bowl. Cover bowl with damp cloth; let rise in warm place until light and double in bulk, about 2 hours. Punch down. Place on lightly floured board; knead until dough is smooth. Mold into desired shapes. Place on greased baking pan. Cover with damp cloth. Let rise in warm place until double in bulk, about 30 minutes. Brush with glaze mixture of 1 part sugar and 2 parts milk. Bake in moderately hot oven (425° F.) 15 minutes, or until done. Makes about 3 dozen rolls.

To Store: Punch down dough after first rising. Cover tightly and place in refrigerator.

SHAPING THE ROLLS

You can shape rolls as you wish, making them dainty or man-sized. Keep in mind, however, that they'll double in size during the final rising. For soft rolls, place them almost touching each other on the baking pan. For crusty rolls, give each one space enough to double in size without crowding.

Get your Free copy of the Family Circle every Thursday

Julia Lee Wright's article in this week's *Family Circle* gives plans for two different parties—both complete with menus, games and other suggestions. Get your *FREE* Family Circle Thursday.

CENTERVILLE CHURCH

10 a. m. Morning Worship.

Sunday school — Younger children at St. James Episcopal, older children at the Presbyterian church. Parents can attend the church service while the children are in classes.

CHRISTIAN SCIENCE CHURCHES

"He that overcometh, the same shall be clothed in white rainment." These words from Revelation comprise the Golden Text to be used Sunday, October 25, in all Churches of Christ, Scientist. The subject of the Lesson-Sermon will be "Probation After Death."

Included among the Scriptural selections will be: "Now that the dead are raised, even Moses shewed at the bush, when he calleth the Lord the God of Abraham, and the God of Isaac, and the God of Jacob. For he is not a God of the dead, but of the living: for all live unto him," (Luke 20: 37, 38).

The following passages from the Christian Science textbook, "Science andHealth with Key to the Scriptures" by Mary Baker Eddy, will also be included: "As man falleth alseep, so shall he awake. As death findeth mortal man, so shall he be after death, until probation and growth shall effect the needed change . . The dream of death must be mastered by Mind here or hereafter," (pp. 291, 427 .

Our fighting men are doing their share. Here at home the least we can do is put 10% of our income in War Bonds for our share in America.

SPERBECK SEEKS ELECTION TO STATE BOARD

OAKLAND—Endorsement from organizations throughout the 18 counties comprising the 2nd District of the State Board of Equalization are being reecived daily at local campaign headquarters of the Sperbeck election committee according to the announcement today of Earl Braillard, general chairman of the committee.

"We have received endorsements from political organizations of all parties. from labor unions, including many locals of AFL Councils, from the CIO, various Railroad Brotherhoods women's clubs, and civic groups.

"These patriotic organizations know that there is one great issue in this campaign for the State Board of Equalization. An issue that transcends all other questions in fundamental importance.

"That issue is whether the voters have the right to exercise their constitutional rights at the regular primary elections of this state or not. It is as simple at that.

"Ivan C. Sperbeck stood for nomination and election to the State Board of Equalization at the primary election in the manner prescribed by law. The only manner in which the voters may have a free "un-bossed" voice in the selection of their elected officials.

"Mr. Sperbeck was duly elected, by direct vote of the people.

"This, evidently, did not suit certain interests and in an almost unparalleled flouting of the recorded will of the people, the political opportunists are now attempting to grab a place on the Board of Equalization.

"I do not believe the voters of this district are so easily fooled."

DRAMA SECTION MEETS

The October meeting of the Drama Section of the Country Club of Washington Township was held last Tuesday at the P.G.&E. Club with Mrs. Frank Katzer and Mrs. Charles Burtch acting as cohostess at a luncheon. A number of the very active members of the club were absent due to the urgency of our agricultural requirements. Mrs. A. B. Hill of Alvarado presided in the absence of the president, Mrs. Alma Searles. Tentative plans were discussed for the program and Christmas party at the Country Club in December at which time the Drama Section will be hostess. Mrs. Jack Rees was appointed chairman for the arrangements and program.

REBEKAH DINNER

Arrangements were made at the last regular meeting of the Niles Rebekah Lodge for the District meeting to be held Tuesday, November 20th at the I.O.O.F. Hall in Niles. The meeting will be preceded by a dinner in honor of Mrs. Anna N. Catlett, President of the Rebekah Assembly. The dinner will be held in the dining hall of the Niles Congregational Church under the direction of the Martha Sanford Circle. Mrs. Catherine Parry, District Deputy President of District 53, and Mrs. Fern Mitte, chairman of the dinner committee, will have charge of all arrangements according to Sena Carr Noble Grand.

MORE BLOOD DONORS NEEDED

IRVINGTON — Registration is being conducted for blood donors for the first call of the Mobile Unit of the Blood Procurement Staff of the Red Cross to be held in Niles at the Veterans Hall Nov. 6th. Irvington is quite proud of the fact that it has a registration of 15 donors up to date. This includes a group of women members of the P.T.A. Welfare Group who were among the first to register last January in San Jose as the nearest contact point for blood donations.

However, nothing further was done at that point and these nine are included as donors. They are Mrs. Stella Benbow, Mrs. Minnie Rogers, Mrs. Justine Adams, Mrs. Lillie Robinson, Mrs. Beatrice Enos, Mrs. Estelle Williams, Mrs. Ruth Maffey, Miss Virginia Scammon and Mrs. Carrie Scammon.

Mrs. Tom Power is our town chairman for blood procurement and she will be glad to receive the names of any others who wish to share some of their life's blood that plasma might be procured to give some wounded soldier a chance for his life. This is urgent! The Mobile unit will visit here once each month. It is not what we give in life but **what we share that counts.** Let us share our Life's blood!

ATTENTION STANDARD FIRST AIDERS!

Due to insufficient registration the Advanced First Aid Class at the High School may have to be postponed until a larger complement of folks are interested. Advanced First Aid is the practice course of First Aid and it might be well for Standard First Aiders to get busy and brush up on the Standard Course in order to be more prepared. There is no such thing as being "too prepared". Also, surely there are more folk interested in being "up to the notch of what they have." Don't let your interest in preparation die out!

SPEED A TANK to the fighting front!

Telephone calls play a vital part in building tanks, guns, ships, planes. They help to move millions of men to the fighting fronts. War is on the wires. There must be no blocking of these war calls.

We cannot build new lines to carry them because copper, nickel and rubber are shooting, not talking, materials right now.

What we can do is to make the most of what we have. You can help by making Long Distance calls only when they are really necessary. And on these, please be as brief as you can.

The call you save today may speed a plane or a tank to the fighting front.

Your co-operation is deeply appreciated.

WAR CALLS COME FIRST!

SERVICE MEN TO GET GIFTS FROM CLUBS

NEWARK — Two organizations in Washington Township have announced plans for service men's Christmas observance, the Newark Bluebird's Club and the Betsy Ross Parlor of Native Daughters.

The Bluebirds will divert money formerly used to buy gifts for local children to purchase a Christmas remembrance for Newark boys now in the armed service. Miss Lida Francis and Miss Julia Ruschin have been put in charge. The club will have its annual tree and candy for the children at the school some time during the holidays, using money on hand.

All Washington Parlor Native Sons in the service will be remembered by Betsy Ross Parlor at Christmas time. Constance Amaral is chairman of the committee. Charter members of the parlor are planning a party for November 6, following a recent affair at which these members were honored.

WAR BOARD ASKS FARMERS TO PICK ALL THEIR CROPS

Taking cognizance of substantially increased costs for harvest labor, the California War Board of the U. S. Department of Agriculture nonetheless called upon tomato producers this week to get their crops picked even though in some few cases they may realize nothing more than the bare costs of harvesting.

Dave Davidson, USDA War Board chairman, disturbed at reports that growers in some sections of the state are contemplating abondonment of fields of ripening tomatoes and other food crops because of their inability to obtain satisfactory labor at rates which would make the season profitable, called upon producers to realize that food is a wartime necessity and that all farmers have the responsibility to make every reasonable effort to prevent waste.

"Let there be no misinterpretation of this stand," Davidson emphasized. "The USDA War Board is not asking any farmer to bankrupt himself through uneconomic production of essential foodstuffs.

Because of the scarcity and high cost of farm labor many tomato growers are facing unprofitable seasons despite fair minimum canner contracts negotiated at the instance of the U. S. Department of Agriculture. But even though it may not seem worthwhile for a grower to pay the necessary costs to get his crops picked, he has the responsibility to the nation to harvest the food, if there is any possible way for him to do so."

CENTERVILLE ELEMENTARY SCHOOL NEWS

The Centerville Elementary School Parent-Teachers' Association will meet in the school auditorium on Tuesday afternoon, October 27, at 2:30 o'clock. All parents and friends are cordially invited to be present.

The students of the School participated in the annual Fire Prevention Essay Contest. Prizes will be awarded as follows: For each school entering the contest: First, $1.50 in war stamps. Second, $1.00 in war stamps. Third, $.50 in war stamps.

There will be four grand prizes for Alameda County. $10.00 in war stamps for best essay submitted; 7.50 in war stamps for second best essay; $5.00 in stamps for third best; and $2.50 in stamps for fourth best essay submitted.

Judges will be Mrs. Mae W. Harville, Mrs. Ethel Saxon Ward, and Mr. Edgar E. Muller, all from the county superintendent's office.

* * *

The school's Junior Traffic Reserve attended the Niles Theatre on Friday evening, October 9. The squad was accompanied by Lawrence Soares and Principal Thomas Maloney.

* * *

The students of the School enjoyed a short Columbus Day program which was presented by the 5th and 6th grade room on Monday, October 12.

* * *

The School has been authorized to participate in the School Milk Program by the United States Department of Agriculture. Under this program each child who wishes milk can secure one half pint of Grade A, pasteurized milk, for one penny. The milk will be served at the ten o'clock recess or at noon.

NORMAL CAR LIGHTS ON LEAVING DIM OUT URGED BY AUTO CLUB

Turn on your headlights when you leave a dim out area!

Failure of motorists to switch on their normal driving lights promptly when driving out of headlight dim out areas is creating a new traffic hazard, the public safety department of the California State Automobile Association declared today.

Urging motorists to be alert for the new special signs marking the boundaries of dim out areas, the Automobile Association stressed the necessity of restoring the regular car lighting immediately after passing a sign denoting the end of an area.

"Both drivers and pedestrians in localities bordering a headlight dim out zone are bing subpected to danger by motorists who continue to drive with dimmed out lights after they have emerged from the restricted area," the Association said.

Register advertisers appreciate your patronage.

WOMEN WANTED AT IRVINGTON CAFETERIA

IRVINGTON — The P. T. A. of the Irvington Elementary school held a special meeting last Thursday in the auditorium of the school with the president, Mrs. E. M. Grimmer presiding. The resignations of Mrs. Caroline Brown as treasurer and Mrs. Craft as chairman of membership were accepted and Mrs. Irma Wright and Miss Marcella Stivers were appointed to fill the vacancies. Mrs. Kate Brewer was hired to assist in the cafeteria of which Mrs. Olace is manager.

An urgent call is made to the mothers to assist in the cafeteria this year due to the lack of W.P.A. funds with which to hire additional help. Only a limited number have answered the call for help and the president hopes for furthr volunteers even for one day's help.

TIRE INSPECTION MADE MANDATORY UNDER RATIONING

The Office of Price Administration ruled that after next January 31, all motorists holding a mileage rationing books must have their tires inspected every four months and those receiving books allowing them supplemental mileage must have their tires inspected every two months. Original inspections of tires on all passenger cars must be made between December 1 and January 31, while commercial vehicle tires —which must be inspected every two months or every 5,000 miles, whichever comes first —may be checked any time after November 15.

Price Administrator Henderson set November 9 as registration day for gasoline rationing in the states where rationing is not already in effect, while motorists in the present rationing area must file a tire inspection certificate with their local rationing boards by November 22. Car owners in the latter area must list the serial numbers of all their tires, and if there are more than five per car, the owner will be denied gasoline ration books until he has disposed of the extra tires. Mr. Henderson said the Government already has started to purchase from car owners all new or used tires in excess of five per automobile. The Defense Supplies Corporation, which has advanced $150,000,000 for the program, has designated 160 warehouses throughout the country as delivery points, and the 23,000 offices of the Railway Express Agency will collect the tires and bring them to the warehouses.

SUNDAY PICNIC

St. Jude Institute No. 163 had their first picnic Sunday, October 11, at Alum Rock Park. Those who attended were: Minnie Garcia, Lucille Day, Dorothy Silva, Anne Castro, Dorothy Freitas, Adeline Harvey Mae Avilla, Irene Harvey, Marie Silveria Ann Perry and Anne Rose as chairman.

NATIVE DAUGHTERS PLAN TO DISPOSE OF GROCERY BOX

Betsy Ross Parlor, N.D.G.W. held, their regular meeting in Anderson Hall, Centerville, on Friday evening with Worthy President Evelyn Peixoto presiding.

The members voted to dispose of a box of groceries this year which will take the place of their annual "Big Game Dance". The dance has been one of their outstanding events, but due to present conditions, the members decided to abandon the dance. Evelyn Garcia, Florence Medeiros and Evelyn Peixoto are in charge of the grocery box.

Adeline Amaral Martin was honored with a stork shower, and received many lovely gifts. The table was arranged with pink and blue balloons, and refreshments were enjoyed by all present. Evelyn Garcia was in charge of affairs for the evening.

WARM SPRINGS SCHOOL VOLUNTEERS TO HELP IN HARVEST WORK

WARM SPRINGS — Due to "one of those things" in our overworked defense set-up, the little school at the southern end of the Township (Warm Springs by name) was not included in the co-operative labor set-up between the schools, principals and farmers of this community.

Ascertaining that the need existed in his own community through persistent personal solicitation of ranchers, the principal, Mr. L. H. Maffey, decided to do something about it. School was dismissed at 12:00 each day and he delivered the children to needy ranches with a supervisor, a faculty member Mrs. Hodgson, who not only supervised the children but worked along with them. Commendation to Mr. Maffey.

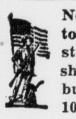
DECOTO SCHOOL DISMISSED TO PICK TOMATOES

DECOTO — Permission to dismiss the seventh and eighth grades until October 26 in order that students may assist in harvest work has been granted to the Decoto Grammar School in a letter received by Principal L. W. Musick from Dr. Aubrey A. Douglass, assistant superintendent of public instruction for the State Department of Education.

This permission follows a petition signed by Decoto ranchers asking that children be allowed to remain out of school for a full day until the crop peak has passed. To date, the Decoto school's 120 seventh and eighth grade students have harvested 4500 boxes of tomatoes and earned $675. The largest single check yet received is from Leonard J. Silva for 306.13 to be divided among the workers, according to their records. in Principal Musick's time book. Students have pledged to put at least half and in some cases all of their earnings into war stamps.

The letter from Dr. Douglass authorizes a 160-dey term for the upper grades of the Decoto school in accordance with Section 3:30 of the State School code. Possibility that these students will be dismissed again in the Spring if they are necessary for crop-planting is included in the letter.

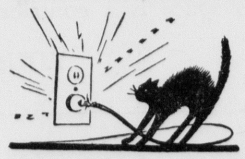
This is the first district to receive permission to shorten the required number of days for student attendance, making it possible for the children to put in a whole day at work. Several other schools in the district are observing a minimum day, ending shortly after noon, this in compliance with school regulations and not requiring special permission.



Not everybody with a dollar to spare can shoot a gun straight—but everybody can shoot straight to the bank and buy War Bonds. Buy your 10% every pay day.

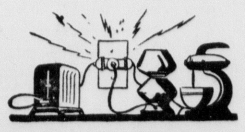
HERE IS WHY FUSES BLOWOUT AND WHAT TO DO ABOUT IT

It's maddening when a fuse blows out. When this happens, however, it is a warning that some appliance may have overloaded a circuit, or there may be a loose connection causing a "short." You can save time by replacing fuses yourself. It is easy to do this and you help us save tires on service cars that are needed to help maintain the delivery of power to war industries. Ask for your copy of P. G. and E. booklet "Guide to Gas and Electric Service" that tells what to do when the lights go out. It is available FREE at any company office.



TAKE CARE of plugs that start spittin' like a kitten. It is advance notice that a wire is about to burn through or a plug terminal is about to give way.

BEWARE of jerking appliances about by the cord. This loosens terminal connections and causes short circuits and blowouts.



BEWARE of using too many appliances at one time on a branch circuit. This overloads circuits and causes blowouts.

TAKE CARE to have a supply of fuses of the right size on hand. 15 ampere fuses (not 20 or 30 amperes) are right for lighting circuits.

Buy a supply of fuses from your dealer today.

P·G·and·E· PACIFIC GAS AND ELECTRIC COMPANY

135 W-1042

He gave more than 10%

—what about YOU?

...and you're not even being asked to give, but to invest in your own future and make a handsome profit besides!

THE STORY OF SCARSDALE JACK *of the Flying Tigers*

He had a lot to live for. Ask his father. Or ask the kids who knew him—his Scout troop—or his classmates at Rensselaer Polytechnic.

Ask his widow.

Scarsdale Jack, Squadron Leader John V. Newkirk on the Flying Tigers' roster, blasted 28 Japs out of the sky before they got him.

He gave all a man can give of courage, guts, gallantry, the will to fight . . . and keep on fighting. Not 10% . . . but everything! His life.

You're being asked only to pledge 10% of your income, a dime of each dollar for War Bonds to give all the Scarsdale Jacks in Navy blue and Army O. D. and Marine forest green the planes, machine guns, bombs, bullets, torpedoes, tanks, and ships and every other weapon they need to give the *Herrenvolk,* the "sons of heaven," and the road-company Romans the bellyful of steel they asked for.

These men who are fighting for your homes, your children, your future, your freedom aren't stopping at 10%.

That's all you're asked for—but why stop at 10%—if you can do better?

BUY WAR BONDS—everybody at least 10% every pay day

This space is a contribution to America's all-out war effort by

YOUR NAME HERE

Now look at the selfish *reasons for buying your share of* **WAR BONDS**

War Bonds, first of all, are for winning the war. Without that what future will any of us have?

But beyond that there are many advantages that make a 10% pledge add up to solid business sense.

You get back in ten years $25 for every $18.75 you put in.

They are the direct obligation of the United States Government.

You can get back every cent you put in after sixty days if you suddenly need money.

You get a handsome interest, 2.9% *compounded*—⅓ more money back at maturity than you put in.

Inflation is the dreaded threat of every American. Systematic savings in War Bonds by each and every American is our major protection against inflation.

Think ahead to that day your bonds mature. It will be wonderful to have that money then, instead of frittering it away now.

When you think of what you have at stake, 10% seems almost too little. So make it more—if you can!

ROTARY SPEAKER

Past District Governor Paul Rieger spoke on membership and Rotary subjects Thursday noon at the weekly luncheon meeting of the Niles Rotary Club held at the City of Florence Restaurant. L. W. Musick was chairman of the day.

GRADUATES WANTED TO TAKE WORK IN AIRCRAFT DRAFTING

A new "earn-while-you-learn" class in Aircraft Drafting, the fourth to be given on the Berkeley campus, has been announced by the War Training office at the University of California to start November 9.

Students will receive $100.00 a month, durng the twelve weeks of instruction, and will be assigned to drafting room jobs in the engineering department of Consolidated Aircraft company, at San Diego, on completion of the course.

Application may be obtained from the War Training office, 201 California Hall, on the campus, and a qualifying examination and interview will be held on Tuesday, November 3.

The course is open to high school graduates, who have had algebra and geometry, and who have completed one year of college work. There is no tuition.

"Payment for students guaranteed by Consolidated, has been adopted for this course for two reasons," Professor A. S. Levens, supervisor of engineering courses for the War Training office, said yesterday. "First, it provides financial help for men and women during the training period while they are transferring from a non-essential to a war-time industry. Second, Consolidated, frankly, seeks to make the course as attractice as possible in order to recruit trainees."

All the major aircraft companies, Professor Levens pointed out, urgently need layout men, junior designers and draftsmen. Training in this course leads to one of those positions.

ALVARADO CHAMBER SEEKING TO OPEN WAR AGAINST RATS

ALVARADO — Wanted — One Pied Piper!

This was the appeal added to the manpower search in Alvarado after the Chamber of Commerce heard complaints from local grain farmers that rats from the dump on Union City Road were raiding grain fields and devastating shocked grain.

In view of the danger from possible epidemics and plague-carrying propensities of rats the chamber appointed a committee at its October meeting to contact Alameda County health officers regarding an extermination campaign. J. C. Wasley, Clyde Lewis and Charles Baird were empowered to take any steps necessary in this regard.

Previous warning has been issued by Fred Duffie, agricultural inspector for this district that extermination of rats placed among the top items on the home front defense program.

WHY YOU SHOULD VOTE "YES" ON PROPOSITION 1

SAN FRANCISCO — "If union racketeers are able to legalize 'Hot Cargo' and 'Secondary Boycott' in California at the November election, you might as well be living in Nazi Germany, so far as individual rights are concerned."

Those words prefaced a stirring appeal to citizens of California to vote "Yes" on Proposition No. 1, issued yesterday by John E. Pickett, nationally known publicist, and editor of Pacific Rural Press. Under the heading "Life, Liberty and 'Hot Cargo,' "

"Unions already exercize drastic powers which interfere with individual rights. If you want to do your patriotiq bit in a war munitions plant you must first get the consent of the union, pay stiff initiation fees, agree to deductions from your salary, and be given a card which most likely will not entitle you to vote in the union.

"Taxation without representation. Your rights have been seized by Unions. That's mild, compared to drastic powers which they want to establish through 'Hot Cargo' and Secondary Boycott.

" . . . . coercion is against the law. The law clearly forbidding this was passed at the last Legislature, forbidding 'Hot Cargo' and 'Secondary Boycott.' But the unions have held up this law by referendum, and now they are asking you in the November election to legalize such coercion by repeal of the law.

"It's an outrage that citizens should have to pause in their war work to fight power grabs of this sort, but the Unions have forced the issue, and good citizens must rally round.

"Every one who believes in the American way, the live-and-let-live policies of the Democracies, must get out a big YES vote to sustain this law.

"What good would it be to defeat Hitler and Hirohito, if we lose our liberty on the home front in November?"

ALAMEDA COUNTY'S ASSESSED VALUE JUMPS $14,721,457

State Controller Harry B. Riley announced today that the assessed valuation of Alameda County totaled $479 148,322 on September 7 of this year.

The County's taxable wealth thus increased $14 721,457 from last year's assessed valuation of $464,426 865, Riley said.

Indebtedness of the county was shown by the Controller's report to total $4 205,585.

Combined assessed valuation of California's fifty-eight counties was reported to total $7,679,695,379, an increase of $328,768,514 over that of a year ago. The comined indebtedness amounted to $154,-826 865, a drop of $15,994,582 Riley said.

JAMES GRAHAM Jr. of the James Graham Manufacturing company at Newark left on Tuesday of last week for Arizona where he will study to become an ensign.

Eighteen Measures On November Ballot Are Listed Here for Study

OTHERS, BESIDES HOT CARGO AND INCOME TAX REPEAL, ARE IMPORTANT

* * * *

Due, probably to the intensity of our war effort, little attention thus far has been given to the propositions which will appear on the ballot in November. So that intelligent voting be not dimmed out entirely, the measures which will appear are listed for study.

Here, in thumb-nail sketch, and in the order in which they will appear on the ballot, are the propositions you will be asked to pass upon when The People's Legislature is convened at the polls in November.

1.—Act prohibiting "hot cargo" practices and secondary boycotts. Farmers and business groups, generally ask a "yes" vote; labor a "no" vote.

2.—Act providing for annual (instead of biennial legislative sessions. The sessions, however, would be restricted to 60 days each.

3.—Masic science medical act; proposed by doctors; opposed by chiropractors and some other groups.

4.—Repeal of State Income Tax; proposed by labor and business; opposed by public employee groups.

5.—Act increasing pay of legislators from $100 to $200 per month; would probably attract higher-type men to Legislature.

6.—Act providing for reorganization of State Board of Forestry; there is controversy about this; the State Chamber of Commerce favors it; employees of the Division of Forestry, however, charge that it would remove the State Forester's position from Civil Service.

7.—Amendment drawn by State Insurance Commissioner, designed to correct inequalities in State insurance taxes, and to stabilize receipts during periods of normal business and depression.

8.—Measures to freeze funds of State Fish and Game Commission for use of that Commission only; similar to Gas Tax provisions.

9.—Act to permit Legislature to reduce or increase salaries of State's constitutional officers; they are now "frozen" in Constitution.

10.—Controversial proposal regarding organization of building and loan companies.

11.—Act to permit 15-round championship boxing matches.

12.—Act authorizing school districts to own stock in mutual water companies.

13.—Act adding one new member to the State Board of Equalization; creating new district in Southern California.

14.—Measure fixing interest rates on court judgments.

15.—Act amending court jurisdiction and procedure.

16. — Amendment broadening powers of administrative bodies and restricting judicial reviews.

17.—Act making State Treasurer trustee of additional State funds.

18.—Act creating a new legislative reapportionment commission, composed of elected State officials.

DRAFTEES CAN JOIN THE NAVY IF THEY WISH

"Every man who is eligible for service and is not yet in uniform should have full information about the Navy, the forty-nine different classes of jobs or ratings for enlisted men, the liberal pay, schooling, dependents' allowances, medical and dental care and other benefits."

Chief Quartermaster Smith reported today the Oakland substation must drive hard to reach its October quota. "Men are urgently needed now" he said. "They must be trained to man fighting craft now sliding down the ways in unprecedented number."

Navy applicants are being instructed as follows:

"Many men who prefer Naval service but have received induction notices from their draft boards can enlist in the Navy right up to the time they otherwise would be inducted. If a man's Navy enlistment is completed prior to the time his draft board has set for him to take the oath he is no longer subject to the draft board orders.

Smith is advising all men who prefer Naval Service to talk with him without delay. Several days usually are required for completion of enlistment. In some cases, especially where the higher ratings are involved, a week or more is necessary before the oath can be taken.

The Oakland substation is located at 13 and Alice Streets. It is open from 8 a.m. until 10 p.m. daily and on Sunday from 8 a.m. until 1 p.m.

Corp. Gene GOMES of Niles, with the chemical warfare service of the Army Air Corps is stationed at the Air Force Army Camp at Merced, California. He visited friends in Niles last Friday and Saturday.

Publishers note: the follow-ing advertisement is paid for by labor interests who wish to retain the Hot Cargo and Secon-dary Boycott as labor weapons during war time. A NO vote will prevent outlawing these two strike privileges during war time.

THE STATUE OF LIBERTY

Next week the Statue of Liberty celebrates her birthday.

Old men in France remember October 28, 1886, when the unveiling of the statue was a great event on both sides of the Atlantic. It was the culmination of an expression of gratitude and friendship from the entire French nation to America. France was not in trouble in the '80's; but the Third Republic, risen from the ashes of the Franco-Prussian defeat of 1870 and the ill-starred reign of Napoleon III, felt a strong sense of kinship with the sister Republic so recently recovered from the shock and suffering of civil war.

The Statue of Liberty was truly a gift of the people of France. One hundred and eighty cities, 40 general councils, many societies and thousands of individuals contributed to its cost.

As she stood 56 years ago, the Statue of Liberty stands today —proudly ageless. Behind her is mobilized the strength of the Republic that received her. Before her, across the sea, the Republic that created her lies broken. But the statue looks down upon endless fleets of great gray ships laden with the arms and men of war; above her upheld torch ocean-spanning bombers fly toward Europe in the spirit of liberty.

What Vichy has done loses significance in this light of reason. Laval's voice is no more the voice of the French people than Quisling's is the voice of the Norwegian people, nor than William Dudley Pelley's voice is the voice of the American people. On another birthday, the Statue of Liberty will look toward a Europe of peoples redeemed and free. The old men of France who remember October 28, 1886 know that, and the betrayed, embittered young men of France must sense it, too.

—ww—

THE TRUTH ABOUT PROPOSITION NO. 1

. . One of the oldest tricks in dubious issues, is to "lay back" on propaganda until shortly before election day, and then confuse the voters by a barrage of arguments that is persuasive on the surface but is at bottom false and misleading.

The general election of November 3, coming in a war year, when the minds of most war-anxious citizens are centered on affairs other than political, and when the ballot is nevertheless a long one containing many propositions and many candidates, apparently provides exceptional opportunities for the confusing of voters.

The ease with which confusion may be fostered is illustrated in the controversey over Proposition One, the Hot Cargo and Secondary Boycott referendum. Opponents of the outlawing of "hot cargo" are, at this stage of the campaign, arguing heatedly that anti-labor interests have "forced this issue upon labor"—arguing heatedly that the referendum is on the ballot because mythical "anti-labor" interests have taken advantage of the war to put it there. That argument sounds well enough, to anyone unacquainted with the simple facts—but it is wholly false.

The facts are that long before any propositions were formulated for this election ballot—back in 1941, the Legislature passed overwhelmingly the "hot cargo" measure. It was enacted into law. The present referendum, Proposition One, is therefore simply an attack by a minority of labor leaders to prevent a law—passed over a year ago and approved by many responsible labor spokesmen anxious for labor peace through the war —from going into effect by the normal legal processes. A vote of "yes" on Proposition One will not be a vote to "put something new across", but merely a vote to sustain a law long since enacted! A vote of "no" actually would be a vote to "put something new across" by nullifying an open, deliberate considered act of the California Legislature!

Our California war-time ballot is, unfortunately, a long and complex one. It should be the duty of every voter, however difficult it may be to find time for the task, to digest it thoroughly before November 3.

—ww—

A HEALTHY SIGN

When the kidnapping of a four year old child can wipe the war news off the front pages of all bay region newspapers, it is a healthy sign that we are still human beings, very much in love with our own babies and our neighbors, willing to share in the grief and anguish of distraught parents. Sharing burdens is a fruit of being Christians.

Can you imagine the bestial nazis with their lust for killing, giving event a moment's public attention to the safety and welfare of one child?

We can thank God we are not brutalized on this side of the pond, and that we have the courage and manhood to fight and win this ugliest of all wars which evil has forced upon US.

For win it we will and no real American doubts it.

—ww—

LAST CALL FOR TAX RELIEF!

The war is now costing the American people SIX THOUSAND MILLION DOLLARS A MONTH. That means $2473—more than the average wage earner makes in a year—every time the clock ticks off another second!

Nobody begrudges that almost incomprehensible expense. It will be well worth the price if every dollar of wealth in America has to be spent to defeat the Axis brigands who would conquer all the world.

The federal tax bill, as now estimated, will rise to $36,537,000,000 for the coming year, or one-third of the total national income. No patriotic American will begrudge that either—for it is for victory. But citizens of California, where State taxes—neither levied nor needed for war purposes—continue to pile up additional funds upon a State treasury surplus of $42,000,000, are concerned over the uncalled for continuance of a State income tax which, unless repealed, will tap a million thin California . pocket-books . next March.

The last call for a legitimate measure of tax relief will come to California voters November 3 when they have opportunity to vote Yes on Proposition Four, the initiative to repeal the California tate income tax.

POLITICAL PARADE

By Clem Whitaker

Governor . Olson, . who . has turned back-flips with the greatest of ease on the pension problem and other issues in times past, is now attempting to perform one of the most difficult feats of acrobatics in The Great Game of Politics—a double somesault so swiftly and dexterously executed that the casual onlooker won't even know that he doubled himself in midair.

This startling exhibition is involved in the Governor's current attempt to double-back on his extravagances and excesses of the past four years and make it appear that the drastic budget reductions forced on him by the Economy Bloc in the Legislature (over his continuous and bitter opposition) were actually achieved by him.

Whether Mr. Olson will get away with the performance depends largely on whether California voters have good memories, but it's a smart trick if he can do it. Governor Olson's handlers set the stage for the act by stating that when the Governor took office, in January 1939, the State deficit stood at $38,600,000, which is substantially true. Then, as the Governor turns in mid-air, his barkers cry: "Today, under Governor Olson's Administration, the State cash surplus stands at $42,000,000 — a money making miracle." That, too, is substantially true, but it isn't true that Governor Olson performed the miracle. That's the joker!

Taken from the records, here's the other side of that story—the part that calls for a double somesault, if Mr. Olson is to escape a public belly-flop.

The Economy Bloc in the Legislature, during Governor Olson's four years in office, has reduced . Olson's . budget . demands by the staggering sum of more than $136,000,000 — reductions which were accomplished in face of the Governor's relentless opposition.

If Mr. Olson had been allowed to spend what he asked for — and fought for — the State would now have nearly a $100,000,000 deficit, instead of a $42,000,000 surplus.

Ironically enough, Governor Olson — in his double somersault trick — is claiming credit for that which he bitterly resisted, but is still trying to "purge" the legislators who made it possible for him to point with pride to a State surplus. Now, too, having reversed himself after Earl Warren's 2-to-1 primary victory, he is promising a program of tax reduction, whereas during his first year in office as Governor he asked the Legislature to levy $63,900,000 in new taxes—and denounced the lawmakers when they killed off his new tax proposals.

If Mr. Olson makes his claim stick that he created the State surplus, then, it must be admitted, the politician's hand is faster than the voter's eye!

—ww—

POOR DAVID

An archeologist has recently discovered records in the Holy Land and elsewhere revealing the amount of gold owned by former kings and queens.

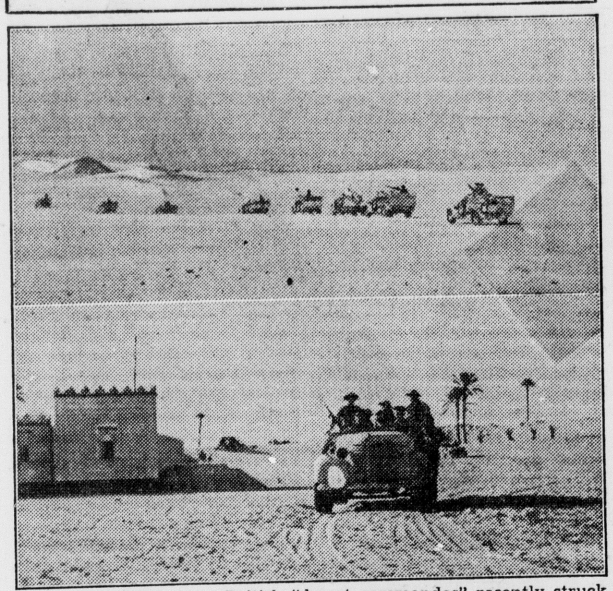
David, poor fellow, had the most. He left 250 TONS of gold when his time came. At our present price of $35 per ounce one ton was worth $1,120,000. So 250 tons made David worth $280,500,000 in gold only.

In addition to that the ancients had stores of great jewels by contrast with which the **great jewels known in the modern world today would be mere** baubles. The princes in the independent states of India today have rare gems known to but a few . . Yet one wonders what became of the costly jewels owned by Solomon, the Queen of Sheba, and other rich characters of the Old Testament?

— ww —

RUBBER CHECKS are out until we win the war, Ben Murphy says. The government needs the rubber, and parties who don't have money in the bank can easily **check** the balance.

Desert Long-Rangers



DEEP IN LIBYA these British "desert commandos" recently struck the enemy suddenly 500 miles behind his lines. Bengasi, Barce and Gialo Oasis were raided by land at the same time sea-borne commandos struck at Tobruk. Over thirty enemy aircraft were destroyed as well as ammunition and supply dumps and motor transports. Top picture shows how these patrols range the North African sands in trucks for weeks at a time. Lower picture, taken during a previous occupation, shows British truck-borne infantry entering the fort of the remote Gialo Oasis.

GEMS OF THOUGHT

Preparation

It is impossible you should take true root but by the fair weather that you make yourself; it is needful that you frame the season for your own harvest. —Shakespeare

What stubbing, plowing, digging, and harrowing is to the land, that thinking, reflecting examining is to the mind. — George Berkeley

Get away from the crowd when you can. Keep yourself to yourself, if only for a few hous daily. —Arthur Brisbane

PENSIONERS BACK WARREN'S OLD AGE PLAN

Candidate Given Credit For Liberalization of Present State Pension Allowance

* * *

Says Pension Is a "Matter of Right," earned During Productive Years

* * *

"Earl Warren, candidate for Governor, has done more in a few months to secure for California pensioners a liberal interpretation of regulations affecting 'outside income' than any other person." . . "He should be elected Governor, and thousands of California's 'Elder Citizens' are going to see that he is elected." . . "in every city and town in the state old people are among his chief supporters, and are earnestly working to place him at the head of the State Government."

These are the statements of hundreds of Pension recipients who declare that it was largely through Earl Warren's efforts that the California regulations on earnings allowed pensioners were liberalized.

"There has been too much politics and not enough action," Warren says, adding:

"I believe in an old age pension as a matter of right—as something we earn in our productive years by our contributions to the upbuilding of the community. If I am elected Governor of California, I shall see that that principle is embodied in our pension laws."

SPERBECK TO BEAT REACTIONARY POLITICIAN

PURPOSE OF PRIMARY PERVERTED BY "BACK-DOOR" CANDIDATE

* * *

POLITICAL BOSSES SEEK TO THWART WISHES OF THE VOTERS

* * *

Ivan Sperbeck member of the State Board of Equalization, regardless of political party, is the man for this important state office, so state prominent labor, business and professional men.

A graduate in law from the University of California, and his experience in city, county and state government qualifies him for this important state office, in contrast with his "back-door" opponent.

Political bosses and their methods in placing a "back-door" candidate on the November 3rd ballot is condemned by every right thinking citizen who cherishes the primary election law.

The primary election law was given to the people by Hiram Johnson when he was governor.

Voters should not be tricked by political bosses in giving up their hard earned rights, won only after many years of struggle for them.

Voters should go to the polls November 3rd and protect their American rights by casting their vote for SPERBECK!

REASONS GIVEN WHY LEGISLATURE SHOULD CONVENE

LOS ANGELES — Six items of Civilian Defense, requiring immediate action by the State Legislature, were listed by Earl Warren, non-partisan candidate for Governor, in a non-political speech before 2,400 delegates assembled in the California-Nevada district convention of the Kiwanis International, at the Biltmore Hotel here.

They were:

1. Legal sanction for a Statewide fire disaster plan which would centralize control of equipment.

2. Granting administrative power to the State Council of Defense, now operating only as an advisory body.

3. Co-operative agreements between cities and counties to cope with the dangers of sabotage and air attack.

4. Compensation for civilian defense volunteers, injured while on duty.

5. Revision of State speed law to 35 miles per hour to give force to rubber conservation program.

6. Enactment of laws covering dim-out regulations and other war time restrictions imposed by military authorities.

Warren, who is also attorney-general of California, has criticized Governor Olson for the latter's failure to call a special session of the legislature to deal with these and scores of other war-time problems demanding immediate legislative action.

"The lack of legislative authority," he said, "creates confusion and hampers sound organization. Our municipal and county authorities should not be faced with the dilemma of failing to meet the needs of civilian protection or acting beyond their authority.

"Almost daily, some local or State agency asks my office for an opinion which will uphold its powers to meet the war emegency."

Warren also stressed that civil rights given up during the war should be restored when peace comes.

"But while these civil rights are surrendered," he said, "it is of the usmost importance that the surrender is made with the full understanding that they are given up only so far as the war requires, and these procedures will return at the end of the war."

The Welfare Club met at the home of Mrs. O. W. Ebright on Monday. Mrs. F. V. Jones was cohostess with Mrs. Ebright

FARMERS MUST REGISTER ALL TRUCKS, TRAILERS

The Alameda County War Board of the United States Department of Agriculture today directed attention of farmers to order No. 21 of the Office of Defense transportation, requiring a certificate of war necessity for operation of all trucks and trailers effective November 15.

Owners of all registered commercial vehicles now are receiving applications for the ODT certificate, which will provide the basis for gasoline and tire rations, and assistance in completing the application during nation-wide registration period October 22, 23 and 24.

Herbert W. Young, USDA War Board chairman, said many farmers and truckers engaged in hauling farm goods apparently are under the incorrect impression the new order does not affect them because they have been exempted from some previous ODT restrictions.

"Everybody who is the registered owner of any commercial vehicle must have a certificate of war necessity to operate legally after November 15," said Young. "This includes farm pickup trucks, as well as other trucks and trailers. There just aren't any exemptions.

"Although the nationwide sign-up period October 22, 23 and 24 is intended primarily as a service to farmers in filling out the complicated application forms, the USDA War Board will provide the same assistance to commercial truckers and others engaged in the hauling of farm supplies or products. The following registration headquarters will be established for the convenience of the farmers in the County. "During the signup period Livermore City Hall, Pleasanton City Hall, Centerville Justice Court, Hayward AAA office, Bank of America building.

FARM BUREAU HEARS OF MANY VITAL MATTERS

CENTERVILLE — The Eden-Washington Farm Center met Tuesday evening at 8:30 o'clock at Washington Union High school upon call of Director James Nunes. Officers were elected for 1943 and plans were made for the membership drive. An address was given by a speaker on Proposition No. 1, the hot cargo bill which the public will vote upon on November 3.

Further information was given on obtaining certificates of necessity for farm trucks, pick-ups and trailers prior to November 15 by farmers who wish to obtain gas, parts, tires, etc. after that date.

Buy U.S.WAR BONDS

What Do You Suppose Our Fighting Men Think About This
"HOT CARGO" RACKET?

What about those pledges to the President and the American People that "Hot Cargo" and the Secondary Boycott would be dropped for the war's duration?

SINCE PEARL HARBOR there have been more than 30 cases, and you can bet that NONE of them HELPED our war effort!

IT'S TIME
for the people of California to rise in wrath and by an overwhelming vote of
"YES" on PROPOSITION 1
Put a stop to the
"HOT CARGO" RACKET!

Aussie "Bushrangers" Train

BEFORE ADVANCING against the Japs in New Guinea, Australian "bushranger" units—the Aussie name for commando troops—were put through rigorous training in combat conditions. Here, two bushrangers scale a 15-foot high palisade. Men like these trapped and annihilated Japs at Milne Bay.

CLUBMEN HEAR FINE SPEAKER ON WHISKEY ART

Forty members and guests of the Centerville Lions and Niles Rotary clubs enjoyed a bang-up steak dinner with trimmings at their annual get-together held last Thursday evening in the rumpus room at Solons in Niles.

Tom Wilson, Chick Burdick and Jack Rees took turns being masters-of-ceremony and they harangued the crowd and did just "fine . . " in fact about $10 worth.

Wit (and other things) flowed freely with not a woman in sight. George Dugan, running for the assembly, took a bow and Albert Silva favored with several belly-piano numbers.

Colonel (courtesy title) Vickery from Kaintuck kept his hearers in stitches for an hour as he touched on a number of interesting facts peculiar to his home state Illiteracy, unfortunately is still rampant: out of 158 hill billies sent to the Draft Board in Louisville recently 70 were rejected because they could not read or write, he said.

Politics is still a shooting business in Kentucky where the natives keep one hand on their guns while they vote. The superior court judge of one county even today can only mark his "x" on legal documents: he can neither read nor write.

He told of the start of whiskey business in Kentuck; Henry Phillipe's residence there a century ago; the origin of the word "Bourbon"; why Kentucky makes the best whiskey; what "bottled in bond" meant and finished by saying raw outsiders had bought into the best of the home grown distelleries and were putting out a relatively poor product, aided and abetted by questionable Ohio River water, as compared to the "pure quill", develpoed as an art through nearly two centuries of "bottling moon beams" by natural born whiskey lovers.

Money was raised by popular subscription to buy and pay for a $25 War Bond with enough left over for $7 worth of stamps.

The Lions roared and the Rotarians rotated freely. It was a wunnerful night, (hic!).

RETIRED FRUIT BUYER GIVEN FINAL RITES

NILES — Funeral services were held at Niles for Joseph Enos, 79, fruit buyer and contractor of this community. He retired about 10 years ago.

Services at the Berge Mortuary Company here were followed with mass at the Corpus Christi Church and interment in the Holy Sepulchre Cemetery at Hayward. He was the husband of the late Mary Enos and the father of Mary, Emily, Henry, Joseph and Edward of Niles and Tony of Centerville. He was a member of the U.P.E.C. of Centerville and the I.D.E.S. of Niles.

Mrs. Connie Amaral, Mrs. Jesse Perry, Mrs. Mary Amaral, and Mrs. Mrs. Ida Francis, attended a shower in Centerville on Friday evening.

WOMEN WANTED FOR STANFORD CHEMISTRY COURSE

Call them Chemaids or Chemaides?

On November 16 Stanford University will open a new training course for women; women who have had one year of chemistry and two years of mathematics; in a 12 weeks training for chemical laboratory technicians.

The course will cover applied mathematics, use of calculating devices, graphs, quantitative and qualitative analyisis, organic chemistry, the use of typical industrial chemical analytical apparatus, methods and references. It is an intensive course, 8 hours per day, five days per week for the full twelve weeks, affording excellent training under competent teachers in the university laboratories. Tuition is paid by federal funds and on completion good positions await the graduates, (half of the class being assured positions in one plant alone at beginning salaries of $140 per month).

To apply for entry in this class send name, address, date and place of birth, grades in math and chemistry, to Prof. Eugene Grant, Room 267, Engineering Building, Stanford University, California at once as members of this class are being chosen now. This is the opportunity that knocks but once as women of this section may secure positions to which they can easily commute in work which will be permanent.

Mrs. G. Wright has recovered from her recent illness and has resumed teaching at Washington Union High School.

BLOOD BANK STAFFS GIVEN INSTRUCTIONS

CENTERVILLE — The first of four weekly sessions for the staff assistants school of the Red Cross blood procurement center opening in Washington Township November 6, was held at the Washington Union High School Tuesday morning from 9 to 11:30 o'clock.

Mrs. L. E. Bailey, president of the Child Welfare Club which is sponsoring the procurement unit, is in charge of the school which will enroll about 30 women. After 10 hours of class instruction and six hours of practical work those who pass the examination will be given certificates and the right to wear the official uniforms of the procurement centers.

Practical work will include service at postoffices and banks in the township where booths are being set up this week and where donors may sign and receive appointments. Staff assistants will also set up the procurement center quarters at the Veterans Memorial Building where the assembly room, the ladies' lounge and the lobby are to be equipped. Approximately 30 doctors, nurses and staff assistants will be on duty the first Friday of each month, beginning November 6.

The quarters were inspected and declared satisfactory by a group of Oakland Red Cross officials last week. They were entertained at luncheon at the home of Mrs. W. L. McWhirter, general chairman of the procurement program in the township.

St. Jude Inst. will hold their annual card party on November 12th at Leal's Hall, Irvington.

Here's what
WARREN'S PLEDGE, "Leadership, Not Politics"
means to YOU

WHAT does EARL WARREN mean when he promises "leadership not politics" in his campaign for Governor? And what does that pledge mean to you?

IT MEANS that as Governor his every act will be measured by but one yardstick: *its importance to America's war effort.*

IT MEANS that he will be Governor for *all* of California's citizens — that he will work with all parties and all groups in the interest of this State.

IT MEANS harmony with the legislature and non-partisan legislation.

IT MEANS appropriations made on the basis of need.

IT MEANS appointments made on merit, regardless of party affiliations.

IT MEANS a planned program for Civilian Defense, a non-political State Guard.

IT MEANS immediate planning for the post-war period —planning that will continue California's forward surge agriculturally and industrially.

LEADERSHIP — the kind of leadership Earl Warren stands for — pledges you that kind of a State Administration. If you agree that such leadership is vital, do as more than a million California voters (including nearly half a million Democrats) did at the primaries — vote for Earl Warren for Governor.

GENERAL ELECTION, NOVEMBER 3rd

WARREN for Governor | X
